

## **Flight Activity Sheet**

1. **Flight** was created using steel and stone and combines parts of insects and birds. Your challenge is to create a creature that will be the inspiration for your next sculpture. On the spaces below write the names of 5 very different animals. Make sure one has wings, one lives in or near water, and you pick the others.

---

---

---

Now, using your imagination, design a creature using the most unusual features from these 5 animals. DRAW the creature on the back of this worksheet. Be sure to pose the creature in an active position like **Flight**. Make your creature jumping, swimming, prowling, etc.

**When you are finished, answer the questions below.**

What is your creature called? \_\_\_\_\_

Where in the world does it live? \_\_\_\_\_

What kind of environment is that? Forest? Desert? City? \_\_\_\_\_

What does your creature eat? Is it an herbivore (vegetarian), carnivore (meat eater), or omnivore (both meat and plants)? Be specific.

---

---

Describe the day-to-day activities of your creature: \_\_\_\_\_
